

ABOUT COMPANY

Our mission

We work for IT development in Azerbaijan through active application of advanced technology to increase productivity and efficiency of our clients' business.

Our aim

Our aim is discovery of our customers' untapped potential by means of an individual approach to their inquiries for optimal development and implementation of advanced IT applications. We consider our partnership relations with customers as mutually profitable cooperation on a long-term basis.

About company

N-LINK is one of pioneers of the information technologies market in Azerbaijan for the period of the operation since 1991 has become one of the biggest national suppliers of computer and network equipment.

Offering complex IT solutions for revealing the partners' potential, nowadays N-LINK is a full cycle system integrator that develops and introduces large-scale information projects demanding serious experience and high qualification of the personnel.

N-LINK is proud of the successful cooperation with LG, APC, HP, Toshiba, Dr.WEB, KABA, Canon, Cisco, Acer, Defender, Linksys, Dors, Magner, AMP, Intel, ACORP, 1C-Bitrix, 1C, Zyxel and Kaspersky.

N-LINK is a professional team of certificated specialists and engineers that performs continuous research and introduction of new technological solutions, and carefully selects equipment suppliers for success of your business.

We provide a wide range of IT equipment, office machinery, consultation services, technical support and other related services. We durably explore new technological solutions and thoroughly choose equipment suppliers.

Due to development of new directions, markets investigation, well-timed partnership building with advanced manufacturers and suppliers, and investments to the staff training, we are always ready to offer up-to-date and intelligent solutions to our customers.
